- Vietnam – Hanoi ACC
- Thailand ACC+Aerorhai radar systems
- Pakistan Intern. Airports
- NAV ATC -ENAV ATC – Radar
- Nigerian Airspace - GVOR-DME Commissioning
- Norway Oslo Airport
- Syrian DGCA - ATCR33S\_SIR-S

Leonardo is a global high-tech company and one of the world's leading players in aerospace, defence and security. The company provides advanced solutions based on dual-use technologies to meet both military requirements and civil applications. Organised into five business divisions (Helicopters, Aircraft, Aerostructures, Electronics and Cyber Security) and the Automation Business Unit, Leonardo has a significant industrial presence in four domestic markets (Italy, UK, Poland and USA). Leonardo also operates through subsidiaries (Leonardo DRS – defence and security electronics, ATR – regional aircraft, MBDA – missile systems, Telespazio and Thales Alenia Space – satellite systems and services) and has an overall industrial and commercial presence in 46 countries worldwide. Leonardo, through its Automation Business Unit, provides solutions for baggage handling systems (BHS) at airports, from check-in to security checks, from automatic baggage handling to baggage reclaim carousels at arrivals. Leonardo's cutting-edge baggage handling turnkey solutions and services are powered by the advanced cross-belt technology.
