

BOMBELLI (Angelo Bombelli Costruzioni Metalliche Srl) has evolved from being a pioneer in the construction industry structural steelwork sector to become a point of reference internationally in the manufacturing of airport ground support equipment (GSE), cargo handling equipment, cool chain solutions and snow removal equipment.

Throughout the years, this has allowed BOMBELLI to create solid long-term relationships globally with major airports, airlines, ground/cargo handling companies, highway maintenance companies, municipalities and equipment rental companies.
